Forecast for Wednesday 10 Nov 2021

Weather: A cloudy start with outbreaks of generally light rain and drizzle. Gradually from mid-morning rain tending to ease with cloud becoming more broken and some limited brighter spells will feed erratically southwards, but the chance of patchy light rain will persist.

Chance of cloud free mountain/hill tops above 800m: 20% at first becoming from mid-afternoon 50%

Visibility: Moderate in rain and drizzle for many to start, and very poor in hill fog with widespread cloud base down to 300-500m during the morning. Cloud tending to becoming increasingly patchy and broken through the day however, with visibilities becoming generally good at lower levels as conditions become drier.
